

THE CHINESE REBELLION.—*Trouble between the French and English.*—The editor of the Philadelphia Inquirer has seen a letter from an officer on board the U. S. ship Plymouth, dated Hong-Kong, March 24th, in which the writer states that the almost universal topic was the Chinese rebellion. The rebel army was much larger than the regular army, and the head or chief represents himself as a descendant of a former Emperor. At the last accounts they were surrounding Nankin, and great fears were entertained that city, as well as Peking, would be destroyed. The writer also says:

In conformity with the request from the Chinese authorities, the British had despatched two steamers and a brig of war, to assist the troops of the Government. The U. S. steamer Albatross had been sent to Shanghai. Capt. Kelly was the senior officer of the station, in place of Com. Aulick. The Mississippi was soon expected, and great impatience was manifested for her arrival.

Quite an excitement prevailed in consequence of an affair at Canton between the French and English. The French Consul undertook to raise a flag pole on the parade ground, occupied by foreigners. The English prevented them, whereupon the Consul wrote to the Captain of a French frigate, stating the whole affair to him. He sent a lieutenant and a draft of Marines to Canton, to protect the flag. The Lieutenant first civilly requested the Englishmen to desist, and on refusing, he, in connection with his men, drove every opponent from the square, and immediately proceeded to erect the flag staff.

The writer adds that it is doubtful if the United States expedition will go to Japan this season. The squadron will not reach Hong Kong before July, and will not be ready before August. The coast at that time was very dangerous, and a delay may be deemed indispensable.

ADVANCE IN THE PRICES OF TEAS.—The effect of the Chinese rebellion.—The first public sale of Teas since the rebellion in China, was held this forenoon by Messrs. Haggerty, Jones & Co. The offering comprised invoices imported per ships Witchcraft, Ben Howard, Victory, &c., and the announcement attracted a large attendance from the trade. As this sale was considered a test for the market there was a good deal of animation among the assemblage, and the prices realized show an advance of about 20 per cent. on the Greens, and about 10 per cent. on the Blacks.

A considerable portion of the latter description was taken out of the catalogue previous to the sale, and some lots of both Greens and Blacks were withdrawn for higher prices, after the sale commenced. The Young Hyson brought 24a38c per lb; Hyson, 24a38c; Hyson Twankay, 20a27; Hyson Skin, 20a21; Twankay, 19; Gunpowder, 32a55 Imperial, 30a40; Oolong, 20a21; Congon, 23; Souchong, 22. The quality was from inferior to ordinary.—N. Y. Express.

THE PROPOSED ARCTIC SETTLEMENT.—Capt. Penny will leave England in the Lady Franklin sailing vessel, accompanied by the Sophia, to form a colony on the shores of Cumberland Sound, where the Esquimaux have reported there is abundance of plumbeago and copper, with other minerals. Mrs. Penny goes out with her husband, as it is their intention to have a permanent residence in the Arctic regions. The Lady Franklin and Sophia, the vessels composing Capt. Penny's former expedition, have been purchased by him for the company he represents.

The arrest of Gen. Arnaud, reported in a letter from Paris, on the charge of killing Gen. Cornu, is said to be not wholly unfounded. The Washington Union learns that some time ago a fatal affray did take place in the presence of the Emperor; that the matter was hushed up, and the victim secretly buried. These circumstances may tend to explain the fact that no account of the transaction seems to be found in the later journals brought by the Arctic.

DYSPEPSIA.

THESE Restorative Pills have been used in private practice, with unprecedented success, for 20 years, they have never before been offered to the public. These Pills remove obstructions, open the natural passages of the fluids of the body—as the pores and lacteal vessels.

THEY ARE WHOLLY VEGETABLE, and perfectly harmless in their effects, instead of weakening and debilitating the patient, (as is usually the case with other Pills) they give tone to the stomach—strengthening and invigorating both stomach and bowels; and imparting new feeling and energy to every part of the system.

Being wholly vegetable, they are mild in their operation, without griping, or any pain whatever. They are slow in their movement, but thorough in their renovating and restorative character; and need only be tried to be approved of by all such as are afflicted with the horrible suffering arising from Dyspepsia, or any of the symptoms of a disordered stomach.

THE STOMACH IS THE CENTRE OF SYMPATHIES. It is principally supplied with nerves by a large pair proceeding directly from the brain, called the Vagus.

These, in their course, send branches to the pharynx and larynx; the oesophagus; the vessels of the neck and heart; the lungs; the liver; the spleen; and the diaphragm.

It is unnecessary to go farther than a primary derangement of the stomach, to account for a multitude of distressing symptoms with which many are afflicted, such as:

| | |
|---|--|
| Indigestion, | Head-Ache, |
| Biliousness, | Extreme Nervous Agitation, |
| Acidity, | Depression of the Heart, |
| Palpitation of the Heart, | Difficulty of Respiration, |
| A Sense of oppression at Stomach, | The pit of the Stomach, |
| An Incapacity for the slightest Exertion, | A temporary loss of memory, irritability, |
| Depression of Spirits, | A Sense of Emptiness, |
| Mistiness and Indistinctness of Vision, | Drowsiness, |
| Cold Hands and Feet, | Pulse less frequent, and more feeble than usual, |
| Unpleasant taste in the Mouth, particularly when rising in the morning, | Debility, |
| Numbness of the Limbs, and other parts, | Extreme Languor and Exhaustion, |
| Vertigo Nausea, | Despondency, |
| Dull Heavy Pain and sense of weight in the Head, | Restlessness, |
| | Emaciation and Extreme Debility, |
| | Costiveness, |

Persons purchasing these Pills will be careful to observe that the name of O. HALSTED, (in gilt letters, on black paper,) is affixed as a wrapper to each box; and that some are genuine unless labeled in this manner. For sale by Druggists everywhere. Principal Depot at BURNETT'S, April, 15. 14 E. Fourth street, Cincinnati.

PRICE, FIFTY CENTS. Persons remitting \$1.00 in cash, or Postage Stamps, will receive (by mail) two boxes of Pills, FREE OF EXPENSE.

"The only natural wholesome drink for man," can be obtained from

BURNETT'S PATENT WATER COOLER.

WE are now prepared to offer our friends and customers a superior article of Water Coolers of entire new styles, at greatly reduced prices. This article is the result of the application of scientific principles to the purpose intended, viz: to keep water as cool as possible, as long as possible, and with the least possible quantity of ice.

The proprietor has long devoted his attention to this particular branch of domestic economy, and as a result of one improvement to another, has at length arrived at a near perfection as it is possible to reach. A proof of this is found in the very general use of these Coolers in all parts of the country. A simple statement of facts in regard to these Coolers, will satisfy every one of their superiority. First, they are the only article of the kind ever patented.—They are finished with two distinct non-conducting chambers, by means of which, with two pounds of ice to the gallon, water is kept (at a temperature of 40 degrees above zero, or only 8 degrees from the freezing point) all day. Thus at a cost of some five cents per day, a family of ordinary size can be constantly supplied with water as cold as ice itself; larger numbers in the same proportion. This has been found by actual experiment to be a saving of at least seventy-five per cent. over the Earthen Jar, formerly used for this purpose.

Again, these Coolers NEVER SWELL; in this way saving much unnecessary waste and trouble. Being manufactured in the most workmanlike style, and handsomely finished in every respect, they make a very beautiful ornament for the Dining Room, Hotel or Steamboat.

An important improvement has lately been added to the Cooler, viz: A small Pan (capable of holding from six to eight pounds of Butter) inserted directly under the cover. This quantity of butter can be kept perfectly hard all day, without additional ice, (a very important addition to the economy and comfort of families.)

If desired, the Cooler can also be furnished at a small expense with a

FILTERING APPARATUS, which serves the additional purpose of removing all impurities from the water, rendering it perfectly clear and wholesome.

The Cooler and Filter may be seen in operation at any time, at

ENGRAVERS AND DIE SINKERS, Manufacturers of Embossed Cards and Advertising Envelopes.

22 West Fourth Street, Cincinnati, Ohio.

THE above is the full size of Percussion Seal Press, which weighs but two pounds. This unique invention is to protect from forgery all important papers, such as Bills of Exchange, Bonds, Checks, Drafts, Letters, Labels, Notes, Receipts, Envelopes, &c.

This protection is obtained by a blow of the hand upon the press, which gives instantly to the paper a chaste, beautiful impress of a business card or address in relief, thus obviating the efforts of the most adroit counterfeiter.

Price of Press, with seal of fifty letters or less, \$5.00.

Press with Notarial Seal, \$5.00. Devices on other than Notarial Seals, extra, say from 50 cents, to \$1.00 and upwards.

Measures have been taken to secure a patent on the above Press.

Arrangements are now made to supply the whole country, East, West, North and South.

This Percussion Press is now in constant use in Cincinnati and vicinity, by many of the principal Bankers, Merchants, Mechanics, Notaries Public, Recorders, Lodges, &c., to whom all who desire information as to its utility, durability and value are respectfully referred.
